Volume 18 Author and Subject Index

aberrance detection, 111, 311
Ackerman, T. A., 257, 329
adaptive testing, 121, 141
alcohol consumption, 343
Alsawalmeh, Y. M., 183
appropriateness measurement, 111, 171, 311
arithmetic word problems, 277
Ashby, F. G., 383

Basilevsky, A., 385
Beasley, T. M., 95
Bentler, P. M., 79
Berger, M. P. F., 141
bias, 229
biweight, 301
Bloxom, B. M., 197
Busemeyer, J. R., 383
Byrne, B. M., 191

chain equating, 369
Chang, L., 205
change measurement, 343
Chen, S.-K., 390
Cheung, K. C., 1
Choi, S. W., 390
classical test theory, 229
Cohen, A. S., 217
computerized adaptive testing, 121, 197
confirmatory factor analysis, 79
consistency, 141
construct validity, 329
correction formulas, 355
Corrections, 193, 389
correlates and predictors of growth or decline, 63
CORRMTX, 95

De Ayala, R. J., 155
de Gruijter, D. N. M., 27
delta method, 369
developmental models, 343
difference algorithm, 53
differential item functioning, 15, 121, 217, 315, 329
dimensionality, 155
distractors, 35
Dodd, B. G., 390
Drasgow, F., 245
dual scaling, 1, 301
Duncan, S. C., 343
Duncan, T. E., 343
dynamic latent class models, 277

efficiency, 141
elementary symmetric functions, 53
EM algorithm, 27
EQS, 79
equality of related intraclass reliability coefficients, 183
equating, 369
Evans, J. A., 329
explicit selection, 355

factor analysis, 97, 389
factor interpretation problems, 97, 389
Feldt, L. S., 183
Fidalgo, A. M., 300
Fitzpatrick, S. J., 390
Foley, P. P., 355
Formann's equation, 53

GR-GRAPH, 292
graded response model, 155, 245
GRAPHDIF, 299
growth measurement, 343
Gudanowski, D. M., 292
Guttman errors, 311

Hanson, B. A., 369
Held, J. D., 355
Hetter, R. D., 197
Heywood cases, 79
Hou, L., 390

improper solutions, 79
incidental selection, 355
information, 257
INTERGRAPH, 276
intraclass reliability, 183
IRTINFO, 390
item bias, 15, 121, 329
item calibration, 197
item discrimination, 171
item fit, 27, 171
item information function, 229
item parameter estimation, 197
item response theory, 1, 15, 27, 35, 121, 155, 197, 217, 245, 257

jackknife technique, 1
Jamshidian, M., 79
Jansen's equation, 53
Junker, B., 385

Kaplan, D., 191
Kiers, H. A. L., 97, 389
Kim, H.-O., 217

Kim, S.-H., 217
King, D. W., 292
King, L. A., 292
Kolen, M. J., 369

Langeheine, R., 277
latent class analysis, 27, 277
latent growth models, 343
latent trait models, 35, 229
Levy, S., 293
Likert scales, 1, 205, 245
linear equating, 369
Liou, M., 53
LISREL, 79
longitudinal categorical data, 277
longitudinal research design, 63
Lord's χ^2, 217

MacCallum, R. C., 193
MacSidak, 298
Mantel-Haenszel procedure, 15, 315, 329
marginal maximum likelihood estimation, 155
Markov models, 277
maximum likelihood estimation, 229
Maydeu-Olivares, A., 245
Mead, A. D., 245
measurement bias, 15
measurement of change, 63
medium of administration, 197
Meijer, R. R., 111, 311
MHDIF, 300
Millsap, R. E., 15
model comparisons, 27
Mokken model, 27
Molenaar, I. W., 111
Mooi, L. C. 1
multidimensional item response theory, 257
multiple assessments, 63
multiple-choice test items, 35
multitrait-multimethod matrix, 205
multivariate correction formulas, 355

Narayanan, P., 315
Neel, J. H., 299
Nishisato, S., 379
nonparametric estimation, 35
nonparametric item response theory, 111, 311
NOVAX 1.3, 195

odds-ratio, 15
optimal test design, 141
outliers, 301

partial credit model, 171, 245
person-fit, 111, 311
person-fit statistic U3, 111
plausibility functions of distractors, 35
polychotomous/polytomous models, 155, 245
power, 315
psychometrics, 245

Rasch model, 1, 27, 53, 171
rating scale model, 1
rating scales, 97, 389
Raykov, T., 63
reciprocal averages, 301
reliability coefficient, 229
reliability, 205
restriction in range, 355
robust estimation, 301
Rost, J., 171

Sachs, J., 301
Samejima, F., 35, 229
sampling theory, 183
scale options, 205
Schönemann, P. H., 293
Segall, D. O., 197
sequential procedure, 141
SIBTEST, 315, 329
Sijtsma, K., 111
simulation, 15
simultaneous item bias statistic, 315, 329
Spearman-Brown extrapolation, 183
standard error of equating, 369
standard error of measurement, 229
state mastery models, 277
statistical test, 183
Stern, E., 277
Stoolmiller, M., 343
structural equation models, 63, 79
Sugawara, H. M., 193
sum algorithm, 53
Swaminathan, H., 315

Takane, Y., 379
test information function, 229
test information, 257
testlets, 141
Thayer, D. T., 121
trait estimation, 229
trait level estimation, 197
Tukey's biweight, 301
Type I error rates, 315

underidentification, 79
unfolding diagnostics, 97, 389
unfolding model, 97, 389
Uttaro, T., 15
validation studies, 355

validity, 205
van de Pol, F., 277
van Schuur, W. H., 97, 389
von Davier, M., 171
Vreven, D. L., 292

Waller, N. G., 195
Weinfurt, K. P., 276, 298
Wingersky, M., 121

Zeng, L., 369
Zwick, R., 121
